

Trevor Kapuvari

Massapequa Park, NY 11762 | 516-666-2747 | kapuvarit@gmail.com
<https://www.linkedin.com/in/trevor-kapuvari/> | [Portfolio](#) | <https://github.com/TrevorKap>

SKILLS & SOFTWARE

Programming Languages: Python (Scikit-learn, Keras, Tensorflow, pandas, geopandas, Numpy), R (tidyverse), SQL, HTML, CSS
Software: ArcGISPro/Online, CARTO, CPLEX, ChatGPT, Jupyter, Microsoft Office Suite, Power BI, Tableau
Database Management: PostgreSQL, pgAdmin, Google Cloud Platform

PROFESSIONAL EXPERIENCE

National Grid

Melville, NY

Data Scientist

November 2025 – Present

- Spearheaded development of spatial risk classification model, incorporated 30 variables into bi-annual infrastructure assessment
- Optimized data architectures by consolidated 3 siloed databases into unified system, improving data accessibility, integration, and use
- Adapted GIS tools, scripts, and workflows based on ad-hoc needs for 4 engineering teams, improving operation scalability

Con Edison

Brooklyn, NY

Spatial Data Scientist

June 2025 – November 2025

- Led AI initiative to integrate large language models into GIS for automated data quality review, decreasing manual output by 30%
- Coordinated with 3 stakeholder-teams to develop technical infrastructure, secure approval, and source high-quality training data
- Designed and executed full machine learning pipeline, including data preparation, feature engineering, and model evaluation

Geographic Information System Specialist

May 2024 – June 2025

- Supported design, implementation, and integration of 6 electric information systems into enterprise geospatial technology
- Implemented data validation protocols and quality control measures for data integrity during migration processes
- Led efforts to modify and adapt GIS tools to meet organizational needs in energy resource management, mapping, and data analysis

U.S Department of the Interior – Geological Survey

Coram, NY

Data Analyst

May 2023 – May 2024

- Transformed raw data into comprehensive reports, detailing water quality metrics, incorporated into environmental impact statements
- Implemented efficient data processing workflows using Model Builder and ArcPy, leading to a 15% increase in overall efficiency
- Analyzed groundwater and surface water data to create interactive visualization, highlighting geological and hydrological trends

Suffolk County – Department of Economic Development

Hauppauge, NY

Transportation Planning Intern

June 2022 – August 2022

- Researched and compiled data on micromobility legal codes, presenting findings to state-wide committees on traffic safety
- Assisted in designing downtown corridors by analyzing usage data and collaborating with planning staff to create shared pathways

PROJECT EXPERIENCE

Data-Driven Interdiction of Marine Plastic Pollution

Ocean Conservancy

January 2024 – May 2024

- Developed customized machine learning algorithm to analyze data for 12 clients, leading to identification of optimal site locations
- Implemented predictive modelling approaches to determine resource allocation and capital distribution for conservation efforts
- Provided data-driven recommendations to stakeholders, utilizing visualization techniques to present findings and solutions

Identifying Neighborhood Amenities via Web-Scrapping and APIs

Wharton-Weitzman Future of Cities Conference 2024

November 2023 – February 2024

- Conducted classification analysis to develop contemporary amenity profiles of cities to aid urban planning research
- Web-scrapping Zillow & Yelp for real estate descriptions and community feedback using Python selenium & BeautifulSoup

EDUCATION

University of Pennsylvania

Philadelphia, PA

Master of Science: Urban Spatial Analytics (3.83 / 4.00)

Relevant Coursework: Remote Sensing, Cloud Computing, Data Mining & Statistics, Public Policy Analytics, Python

Stony Brook University

Stony Brook, NY

Bachelor of Arts: Environmental Design, Policy, and Planning (3.89 / 4.00), Minor: Geospatial Sciences

AWARDS & HONORS

- Eagle Scout, Project on Nature Preserve Mapping
- Phi Beta Kappa Honor Society
